

Duct Work Layout - □DF8000

4" Wall Mount
Brackets. Attach
to the wall.

Notes:

- A) □DF 8000TF has a 10HP motor. At 480 volts 3 phase, full load amps are 14.2amps.
- B) There will be an Oskar arm at each grinder. 4" diameter by 8' reach. Hood on end of arm will cover grinder area.
- C) Will balance out system for current drops.
- D) Each Oskar arm has a balancing damper in it for air flow adjustment.
