

Plan View

Ductwork and Fume Arm Layout

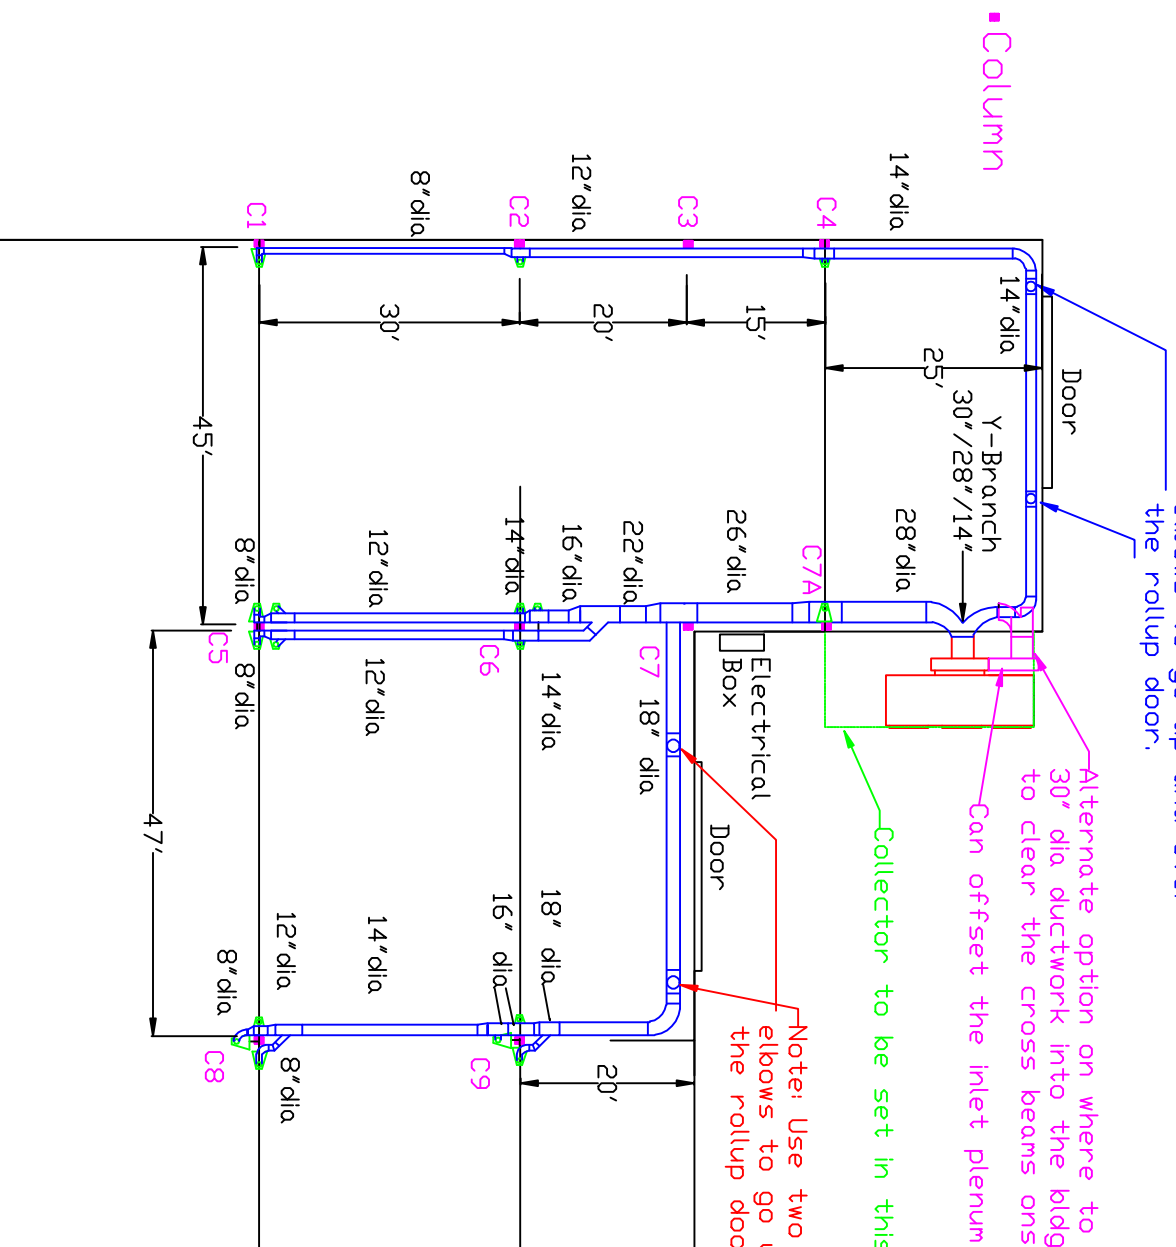

Note: Use two 14" 90 deg elbows to go up and over the rollup door.

Alternate option on where to bring the 30" dia ductwork into the bldg. Will need to clear the cross beams inside.

Can offset the inlet plenum

Collector to be set in this area

Note: Use two 18" 90 deg elbows to go up and over the rollup door.
