Subject: Elgin Community College ITR Building- Welding Lab Renovations- Paint Color Approval

Dear Chris,  
As required in the specifications, we are submitting the enclosed paint sample, Dark Bronze Color. This sample is a powder coated paint system.

The section 2.05 DUST COLLECTOR SPECIFICATION- BASIS OF DESIGN, POINT V and your request in a recent on-site construction review meeting requires this approval. Please note the paint requires a production time to prepare for the fabrication shop. The dust collectors are in welding at this time and the approval is required in the next 1-2 days.

We do not have the contract for the exterior inlet and outlet ductwork into or out of the dust collectors and cannot provide the same shop applied powder coated paint system for an exact match.

Thank you,  
  
Fred Johnson

Review of Shop Drawings, Product Data and Samples are conducted for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment systems, all of which remain the responsibility of the Contractor as required by the Contract Documents. This review shall not constitute approval of safety procedures or, unless otherwise specifically stated by the Architect, of any construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

Date 6.22.11 by SH KLUBER, INC.

THE PHYSICAL BROWN SAMPLE ON METAL WILL BE RETAINED BY LAMP INC. - EXT. DUST-WORK TO MATCH THIS APPROVED COLOR.

E.C.C. - I.T.R. : DUST COLLECTOR & EXTERIOR DUSTWORK COLOR.
