Jesse,

Just touching base with you on the status of the e-mail that I sent to you week before last. Our schedule is filling up and I need to get the fan on order. I will relist the items that I need to have addressed:

- 1) Can you handle a 60hp motor at 240V with a load of 150amps.
- 2) We need names of an electrical contractor and a mechanical contractor.
- 3) We need to know when you need the system installed.
