Your part numbers and list prices are below. I would give them 25% off the list price for the filters.

Charles:

Can you please forward me the part number and list prices for the filters below. This is for an Oskar collector we sold to them a couple of years ago.

Thanks,
 Bob

Hello Bob,

I have a question regarding the "Top Mounted Dust Collectors" that were sold to us by Oskar a few years ago (see attached manual).

Specifically, this system uses a 3-stage filter setup. The specifics listed for each filter as specified in the manual are below. I recently tried to locate replacement filters for these, but have not had much luck except for the pleated cartridge filter. Do Oskar resell all three of these? If not, would you be able to furnish the MFG and part number for each of these filters? There are no markings on the filters currently installed.

If you do resell these, would you please provide me a price per filter for budgetary purposes. Our filters are

currently is acceptable condition, but I need to start planning and potentially stock replacement ones.

ALUMINUM MESH captures sparks and steel chips. – FM-23500 (\$65)

specification: 1320 x 540 x 22 mm

quantity: 1 pc

filter efficiency: 25 ~ 30%

PLEATED CARTRIDGE FILTER that can be cleaned by push-button pulse-jet cleaning of the cartridge filter from an onboard air tank. – FM-20050 (\$194)

specification: Ø325 x 660 mm [Ø12.8" x 26"]

quantity: 8 pcs

filtering area: 80 m²

HEPA MODULE cleans noxious fumes to provide a better working environment. – FM-23050 (\$538)

specification: 24 x 24 x 11.5 inch

quantity: 3 pcs

filtering efficiency: 95% ASHREA FILTER

Thank you,

Dear Tim:

Attached is the owners manual for the Oskak collectors.
