

# Ductwork Layout for Stamping Presses

- Notes:
- A) Bottom of ductwork 12' off of floor. Keep close to ceiling as possible.
  - B) Each drop to have butterfly damper for airflow adjustment.
  - C) Hang ductwork with Gripples every 10'
  - D) Drain line to have P-Trap and to be installed by Elkhart.
  - E) DDR to sit on stand (see drawing) and to be made by Elkhart.
