

Extraction Arm NEX MD

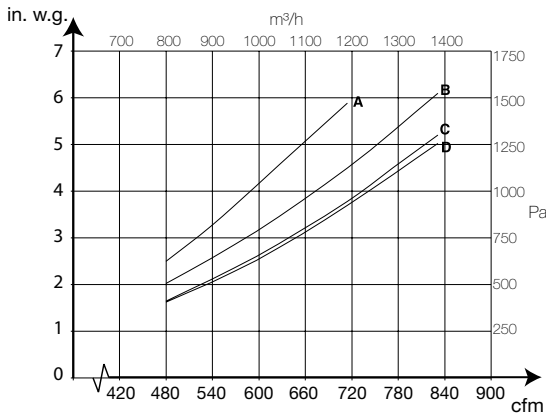

Nederman NEX MD is an extraction arm for medium to heavy duty applications. The arm has a Ø160 mm (6¼ inch) hose, which together with the external arm system provides a high air flow and a low pressure drop. Perfectly balanced and simple to position.

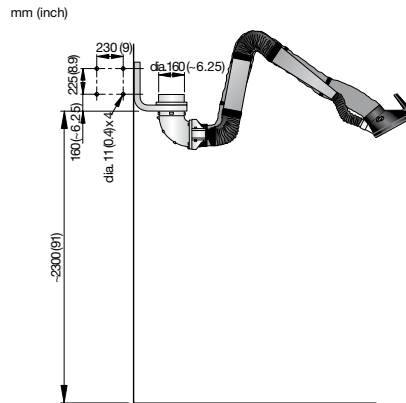

- Robust swivel - allows 360° rotation
- Encapsulated support mechanism protects the arm against dust and dirt
- Can be mounted on brackets, extension arms and exhaust rails
- With a damper in the hood - saves energy when not in operation
- The hose is easy to remove for cleaning
- The hood can be tilted in all directions

Pressure drop

A: 5m (16 1/2ft.), B: 4m (14ft.), C: 3m (10ft.), D: 2m (7ft.)

Description	Reach, m (ft.)	Airflow, m³/h (cfm)	Connection Ø, mm (in.)	Max. fume temperature, °C (°F)	Noise level at hood, dB(A)	Weight, kg (lb.)	Part no.
